Behavioral Biases And Governance Nacubo

In this chapter, we theorize that corporate governance models in emerging countries, relative to their developed economy peers, countenance greater behavioral biases in financial decision-making. Our arguments start with the notion that officers and directors of a firm choose the types and venues of various financial instruments to fund the firm and design various mechanisms to allocate these ...

Financial Decisions, Behavioral Biases, and Governance in ...

of behavioural biases among fund managers in Malaysia and to discuss ways to govern behavioural biases through behavioural governance. Noting that behavioural biases are argued to be higher in Asian markets (Kim & Nofsinger, 2008), Malaysia is conveniently chosen as a case to study behavioural biases.

- The purpose of this paper is to systematically review the literature published in past 33 years on behavioural biases in investment decision-making. The paper highlights the major gaps in the existing studies on behavioural biases. It also aims to raise specific questions for future research. , - We employ systematic literature review (SLR) method in the present study.

Behavioural biases in investment decision making - a ...

We propose a behavioral theory of corporate governance based on an ontological foundation of socially situated and socially constituted agency. More specifically, we advance a multi-level,

mechanism-based, theory of governance that is socially informed yet actor-centric, and thus offers a distinct alternative to under-socialized governance theories, such as agency theory.

A Behavioral Theory of Corporate Governance: Explicating ...

Investment managers are not spared from the biases described by behavioral finance. The literature indicates that even experts in their respective fields fall prey to cognitive biases. 4,5,6 It is important for advisors and wealth managers to be aware of biases and mental shortcuts that can impact their decisions.

Behavioral Finance: Understanding How Biases Impact Decisions

The prevalence of biases in corporate decisions is partly a function of habit, training, executive selection, and corporate culture. But most fundamentally, biases are pervasive because they are a product of human nature—hardwired and highly resistant to feedback, however brutal.

The case for behavioral strategy | McKinsey

behavioral theoretical approach into perspective against major research streams in studies of boards and governance. Section three will then summarize main theoretic concepts from the behavioral theory of the firm that have been used in recent board research, which provide the basic ingredients for a behavioral theory on boards and governance.
