You can find wet Oasis foam at florists and craft stores; do not use dry Oasis foam, or the solution will not help maintain your humidor. You can find propylene glycol at pharmacies; you may need to talk directly to a pharmacist to get this chemical. Use distilled water from a grocery store.

How to Make Your Own Humidor Solution | Our Pastimes

Propylene glycol is a colorless innocuous liquid, which has two extremely favorable characteristics for its use in humidors. Firstly, the formation of mold as well as bacteria is actively prevented. Secondly, propylene glycol forms a thin layer on the surface of the humidifier, which absorbs humidity at humidity levels of over 70% and which emits humidity at humidity levels below 70%.
