Prospects And Challenges Of Agricultural

3.3. Challenges of Agricultural Production and Productivity in Ethiopia. The agricultural production trends throughout the 1980's up to mid-1990's were characterized by wide fluctuations in total output and weak growth, with grain production increasing at rate of 1.37% annually compared to population growth of 2.9 % (World Bank, 2004).

Challenges and prospects of agricultural production and - GRIN

CiteSeerX - Document Details (Isaac Council, Lee Giles, Pradeep Teregowda): There is a general consensus that bad economic policies, among other factors, are to blame for the poor performance of economies in sub Saharan African (SSA). However, there is no similar consensus on the effect of economic reforms on poverty alleviation, a primary goal of any economy in the region.

(PDF) Review of Challenges and Prospects of Agricultural ...

For decades, agricultural science has focused on boosting production through the development of new technologies. It has achieved enormous yield gains as well as lower costs for large-scale farming. But this success has come at a high environmental cost. Furthermore, it has not solved the social and economic problems of the poor in developing countries, which have generally benefited the least ...
